

# Lana Kornilova

**Brand & Graphic Designer** / Lead Designer / Art Director

[Portfolio website](#)

[Portfolio on Behance](#)

Brand and graphic designer. 10+ years in visual identity, digital communications, web design, advertising and UX/UI.

I build brand visual systems for digital and offline environments: identity, websites, presentations, advertising materials, marketing campaigns and interface solutions.

An additional layer of expertise is digital and product logic: web structure, user scenarios, design systems and clear communication grounded in business value.

Experience managing design teams of up to 16 people, building processes and mentoring designers. I use AI tools to speed up work on visual content, concept generation, research, prototyping and the automation of design processes.

## Core expertise

Brand Identity • Brand visual systems • Art Direction • Digital Communication • Creative concepts • Marketing campaigns • Web Design • Landing pages and promo sites • Presentations for business, training, conferences and project launches • Editorial & Print Design • Design systems • Consistent brand communication • Brand Consistency Across Channels • Design Operations • Managing design teams • Building design processes • Mentoring designers • AI automation of design processes • AI-assisted Creative Workflow

E-commerce / BigTech // MedTech / SportTech / FinTech

## Tools

Figma, Miro, Photoshop, Illustrator, InDesign, Tilda Expert, Webflow, Tilda, GPT, Claude, Gemini, Midjourney, Nano Banana, Kling, Leonardo.

## Experience

### **Independent practice (Germany / Turkey / Georgia) | 2023-Present**

End-to-end designer working independently. 20+ delivered projects for small and mid-sized businesses. Brand identity, web design, advertising graphics, presentations, landing pages and websites. Projects on Tilda and Webflow. Some projects under NDA.

Labo project: a landing page for bringing cosmetics lines to the Russian market, catalogues and price lists by product line.

### **Vivanti | 2023-2026**

Designer on the project team of a medical agency. Presentations, landing pages, email campaigns, infographics, advertising and training materials for medical and pharmaceutical companies.

Working with complex medical, scientific and clinical information: structuring and visualizing it for different audiences.

### **IT Career Hub (Berlin) | 2025-2026**

Designer / Expert UX/UI.

Developing the structure and content of an educational program in design. Preparing written and visual materials, practical assignments and capstone projects.

### **Verba Mayr | 2023-2024**

Art Director / Lead Designer.

Redesign of the digital ecosystem of a premium medical & wellness brand: verbamayr.ru, verbacuisine.ru, verbaskine.ru.

Traffic to the main site grew by around 20%. Launched 10+ digital campaigns and marketing activities with a single visual and user experience across the brand.

### **Control Systems | 2021-2023**

Head of Design Department.

Led the design function and built the team's working processes, with a team of up to 16 people.

Worked on enterprise management systems and internal B2B products for large corporate clients. Designed complex data-heavy interfaces and contributed to building a single visual system across the products.

Built a design system from scratch: 50+ components and modules, documentation, adoption in development. It cut the time to produce design layouts by around 80%.

### **TOGAS | 2016-2021**

UX/UI Designer → Head of Design Studio.

Redesign of the main TOGAS site and the visual communication of a premium home textile brand.

Launched 4 sites for new lines and sub-brands. Built consistent brand communication across media: digital communications, catalogues, advertising materials, email marketing and retail touchpoints.
